

INTRODUCING "te" a Melbourne based design team that creates hand stitched, hand crafted, beautifully designed leather bags, wallets and accessories. Made by hand "te" started in Tokyo in 2004 and their continuing focus on traditional techniques ensures that none of the limited edition designs are compromised by large scale production. Pomme is happy to stock these butter soft leather items – pieces that will be worn and enjoyed for a lifetime. Included in the range will be coin purses, camera pouches, hand bags and button brooches.

CHOP SUEY FOR ONE  
The Parrott Collection continues to delight and surprise us with their seemingly endless supply of unusual objects. Fresh in these Chop Suey charm bracelets with tiny Buddha charms, wooden beads and vintage Chinese trinkets.

### UNDER THE RADAR

Sometimes the younger designers at Pomme slip under the radar, eclipsed by the established makers who already have a strong following. Check out the Adventures of the Curious friendship heart necklaces and keys; Caroline Jones's loopy infinity range and unique saddle rings that are as popular with the guys as the gals and Sarah Dingwall's blooming range of glass rings, earrings and irresistible birds.

### HOME BEAUTIFUL TO YOU

Recently featured in Home Beautiful were these vintage Russian botanical posters again from the Parrott Collection, happy to see we are not the only ones addicted to their original finds.

### WORDS AND PICTURES

A word too for the designers of our small but very select range of cards at Pomme. Ramona Barry designs the charming and funny range of animals and dreamy children that feature on the Words and Pictures range, while Quince dazzle us with their stylish screen-printed, stitched cards that are almost too nice to use. Hammer and Daisy add the totally quirky factor to these cards, so we will be able to help you for pretty much any occasion gift or message – all are blank just waiting for your words of kindness to fill them.

### BOAB TREES BACK IN STORE

Angela Ryder has created a range of neckpieces and earrings featuring the mystical Boab tree. Strung on red silk thread, or prayer beads in Lotus and Bodhi seed, these stunning works will make your heart skip a beat. Wear them, contemplate and enjoy the artistry that has brought them from Angela's work bench to you.

With a previous 17 year history of working in one of Melbourne's leading contemporary art galleries, Pomme will happily recommend an extended range of artwork from leading Melbourne galleries. This service includes home visits, appropriate painting and sculpture recommendations, delivery and hanging services.

### WRAPPING UP WINTER

It's official: we have the most colourful, most divine range of knits and felt wear for winter. They are in such small quantities that you can be guaranteed not to see them on every other passerby, but it does mean you have to snap them up when you see them as they do fast.

### WINTER HOURS

June, July & August will operate under slightly restricted hours – DAILY 10:30–4:30 & WED and SAT 10–3. Please call us if you can only get here after those times as we will willingly stay on if you need us to be here later.
